

## RIGHT PRODUCT, BEST PRICE, DELIVERED ON TIME

**HYDPOWER** is Australia's trusted specialist supplier of high quality hydraulic components and services

Our hydraulic product line boasts a wide range of very carefully chosen components that are engineered and manufactured to the highest tolerances and standards from the best specialised quality endorsed manufacturers from Australia and around the world. Every component is subjected to a robust testing procedure to ensure superior performance, longevity and value for money.

This enables us to provide you with the most suitable combination of standard and custom manufactured components for every application with ultimate confidence. We don't take any shortcuts with quality or specification, as we know how inconvenient and expensive "down time" can be.

**HYDPOWER** prides itself as being able to provide cutting edge innovative hydraulics components of the finest quality at very competitive prices, that are all backed with first class support, expertise and knowledge. We underpin our commitment to ensure your satisfaction by supporting all of our products with our industry leading 24-month, 5 star guarantee - giving you the peace of mind you deserve.

- ★ Accessories

# COMPONENT SELECTION & SPECIFICATION

With 40 years of practical hands on experience, **HYDPOWER** can save you critical time in helping you choose a component that is just perfect for your needs, at the prices you want to pay. Leave the headache of component shortlisting and selection to us. We supply components with your best interests in mind

## 24 MONTH INDUSTRY LEADING GUARANTEE

All **HYDPOWER** genuine components carry an industry leading 24 month - no risk warranty. If any component supplied by **HYDPOWER** fails within this period, we will replace that component free of charge. It is this industry leading confidence in our products, that allows us to offer you the peace of mind you require.

For further information on other guarantees visit [hydpower.com.au](http://hydpower.com.au)

## COMPONENT QUALITY ASSURANCE

**HYDPOWER** personally visits all of its suppliers to ensure that all components are engineered and manufactured to the highest tolerances and standards. This strict quality protocol allows us to inspect and control :

- The environment in which our suppliers manufacture their components
- Processes and testing procedures used in our suppliers facilities
- Building and packaging processes and materials in our suppliers factories
- Ethical standards in all our suppliers manufacturing facilities

Our extensive due diligence and procedure in selecting our component suppliers reflects in the very high quality of reliable components we have been able to offer, for almost four decades now.

## GENUINE COMPONENTS - YOU CAN RELY ON

With **HYDPOWER** genuine components, you benefit thanks to their exceptional quality and outstanding reliability - our components are a compelling proposition. What is more, the extreme durability and outstanding price/performance ratio of our genuine components is particularly impressive.

## DON'T ACCEPT SECOND BEST

- ★ **FREE** refund if not completely satisfied
- ★ **FREE** alternative product if determined unsuitable
- ★ **FREE** investigation and testing to determine cause of issue

\*Subject to investigation and evaluation to determine components used within manufacturers specifications and **HYDPOWER** recommendations.

# HYDPOWER COMPONENT ADVANTAGE

## CUSTOM COMPONENT DESIGN AND SUPPLY

In addition to our extensive standard range of high quality components, **HYDPOWER** has earned a reputation as one of the best custom hydraulic component and manifold design and supply companies in Australia.

## TYPICAL EXAMPLE:

We recently designed a custom hydraulic system that integrated 5 individual valves into one custom manifold block. This significantly reduced the overall cost, number of connections and installation time – as well as improving the performance and appearance of the machine.

At **HYDPOWER**, we understand how your system's unique design and engineering would benefit from custom components. Regardless of how sophisticated your needs are, we will design and integrate the most cost effective solutions for your hydraulics system to reduce the number of overall components and connections.

- Products of the highest quality, at ultra - competitive prices
- **HYDPOWER'S** proprietary loyalty rewards program
- Financial rebate opportunities for volume or product supply schedules
- Routine special offers and bundled product pricing options
- Professional advice, guidance and consultancy to aid hydraulic components purchase
- Attractive free shipping options extendable, based on monthly spend trends
